Training

Summer Training LPU

Jun 2024 - Jul 2024

- Completed a 30-days summer training program focused on Java app development, emphasizing both foundational programming concepts and practical game development.
- Developed interactive applications, including a Flappy Bird game, using Java Swing for GUI design and event handling.
- Gained hands-on experience in building responsive interfaces and handling user interactions through Swing components such as buttons, panels, and frames.
- Collaborated in a learning environment, enhancing teamwork, communication, and project management abilities.

Projects

Certificate Authentication System | *Flask, React.js, PyTorch, ResNet18, RSA-2048*

Jan 2026 – Apr 2026

- Developed a certificate authentication platform using **Flask**, **React.js**, and **PyTorch** for instant multi-layer certificate verification.
- Implemented AI-based steganography to embed and extract cryptographic tokens for tamper-resistant certificate authentication.
- Integrated **ResNet18 neural fingerprinting** to generate unique certificate embeddings and performed **cosine similarity matching** for detecting forged or modified certificates with high accuracy.
- Strengthened document security using **RSA-2048 digital signatures**, **SHA-256 hashing**, and metadata validation, ensuring certificate integrity, authenticity, and protection against unauthorized modifications.
- Built a role-based verification dashboard with **JWT authentication**, audit logs, verification history, and real-time validation.

Therapy Web App | *ReactJS, Firebase (Cloud Functions – Node.js), TensorFlow.js*

Jul 2024 – Sep 2024

- Designed and developed a full-stack therapy web application using **React** for the frontend and **Firebase** for backend services.
- Implemented **secure user authentication and data storage** using Firebase Authentication and Cloud Firestore.
- Integrated **TensorFlow.js** to enable client-side AI features for real-time analysis without sending sensitive data to the server.
- Built a **responsive and user-friendly interface** to support smooth navigation and an engaging user experience.
- Deployed the application using **Firebase Hosting** and optimized performance for scalability and reliability.

Certificates/Achievements

Cloud Computing: Certified in NPTEL cloud computing, showcasing cloud technology knowledge.

NPTEL - [Certificate link](#)

Jan 2025 – Apr 2025

App Development in Java: Gained experience in App development through a java course conducted by LPU.

LPU - [Certificate link](#)

Jun 2024 – Jul 2024

DSA with C++: Completed a DSA course in C++ on udemy, strengthening core programming skills.

Udemy - [Certificate link](#)

Feb 2024

Programming Certificate in C++

Coursera – [Certificate link](#)

Dec 2023

LeetCode

Solved medium level questions

Technical Skills

Languages/Web Technologies : C/C++, Java, Javascript, HTML, CSS, Python.

Frameworks & Libraries/Tools: ReactJS, NodeJS, ExpressJS, Git/GitHub, MySQL, MongoDB, Spring Boot, Google Colab.

Technical Courses: DSA, OOP's, DBMS, Operating System, Computer Networks, Unsupervised Learning,

Education

Lovely Professional University Punjab

2022 – 2026

B.Tech in Computer Science and Engineering — CGPA: 6.7

Phagwara, Punjab

Guru Nanak School Ranchi

2021 – 2022

12th with Science — Percentage: 70.6%

Jharkhand, Ranchi

Bishop's School Bahu Bazar Ranchi

2019 – 2020

10th with Science — Percentage: 73.80%

Jharkhand, Ranchi
